Central Air

And Heat Pumps

QUIET PERFORMANCE EFFICIENT COOLING COMFORT

We spend a majority of our free time inside our home and we want this haven to be comfortable and worry free. Keeping your home comfortable begins with the ability to maintain the right temperature, providing cool relief on those humid, hot days.

An air conditioner cools and dehumidifies indoor air. By keeping your thermostat at a constant temperature, your air conditioner will keep those humid hot days, and every day, feel refreshing.

To accomplish this, your air conditioner needs to be sized correctly for your home in order to maintain balance and efficiency. To determine what size air conditioner your home needs, ask your Continental® HVAC dealer

Features

- Up to 14.5 SEER (Seasonal energy efficiency ratio)
- 1.5 to 5 tons cooling capacity
- Year-round heating and cooling indoor comfort (Heat pump model)
- R-410A Chlorine-free Refrigerant
- Energy Star rating (SSZ14 & SSX14)
- High efficiency scroll compressor
- Quiet operation
- Service valve gauge ports positioned for multiple directional access
- Time delay relay standard
- Factory installed filter dryer
- Painted galvanized full metal jacket with hail guard/easy clean vertical vents
- Lifetime Compressor Limited Warranty (SSX14 & SSZ14)

What is 410A?

R-410A is an environmentally friendly, next generation refrigerant. R410A is chlorine-free and better for the environment.
