

## New Napoleon® Online Learning Center for Architects and Designers! Gas Hearth Appliances: Enhancement Living Environments

Napoleon® has teamed up with AEC Daily to develop an online training course. By teaming up with AEC Daily we are able to promote the Napoleon® brand to all of the Architects and Designers using AEC Daily's Online Learning Center (OLC). Architects and Designers need to accumulate credits to keep their creditation. Napoleon® is very proud to offer a credited course for Architects and Designers on AEC Daily.

The Napoleon® continuing education course, **Gas Hearth Appliances: Enhancing Living Environments** is now live on AEC Daily's Online Learning Center (OLC). The course can be viewed here [www.aecdaily.com/sponsor/napoleon](http://www.aecdaily.com/sponsor/napoleon).

For more information on how to use this valuable tool, please contact Greg Thomas, [gthomas@napoleonproducts.com](mailto:gthomas@napoleonproducts.com).

### About AEC Daily Online Learning Centre

AEC is considered to be a viable alternative to traditional, classroom style education. AEC Daily's Online Learning Center is a practical and affordable way for procuring ongoing, state-of-the-art, and up-to-date continuing education. Architects and Designers can download a course 24 hours per day, 7 days per week. Since the course then resides in their desktop or laptop computer, they can participate in the learning experience at the convenience of their home, office, or while on the road. These courses are offered free of charge through a professional courtesy provided by the sponsors (in this case Napoleon®).
