### **NAPOLEON APPLIANCE CORPORATION (NAC) ANNOUNCES NEW APOLLO® SMOKER-COOKER GRILL**

**NAC announces a little brother to the Apollo® AS300K, the AS200K 3 in 1 smoker-cooker grill**

A smaller, more compact version with all the power you need for wet and dry smoking, or use it as a stand alone charcoal grill with lid. The AS200K is 16" in diameter and includes two stackers between the bottom bowl and the top lid. Each chamber includes a 16" cooking grate with 248 sq. in. of cooking area. Whether you have advanced skills or are just branching out to different methods of grilling, the AS200K offers features to assist a grilling chef at all skill levels.

The upper lid contains a horizontal bar with five meat hooks for hanging fish, ribs or sausages for smoking, but simply remove the hooks and middle chambers and you have a portable charcoal grill perfect for tailgating, picnics and any outdoor activity. Temperature eyelets at each grill level provide access for inserting a thermometer probe, multiple vents for excellent temperature control, two hinged tightly fitting doors with easy access to the water pan and charcoal baskets all contribute to easy use and high quality performance.

#### **About Napoleon Gourmet Grills**

It all began in 1976 when a small steel fabrication business launched by Wolfgang Schroeter started manufacturing steel railings in Barrie, Ontario, Canada. At that time, no one could imagine the incredible future that lay ahead for Wolf Steel Ltd., and eventually Napoleon® Fireplaces and Napoleon® Gourmet Grills. Since the first wood stove rolled off the production line over 36 years ago, Wolf Steel's commitment was to be distinctive and successful in everything they do. Napoleon's commitment to producing quality products combined with honest, reliable service has proven to be a successful framework to ensuring the continued rapid growth of the company. Napoleon® is an ISO9001 - 2008 registered company and now operates with 750,000+ square feet of manufacturing space and over 700 employees. We are North America's largest privately owned manufacturer of quality wood and gas fireplaces (inserts and stoves), gourmet gas and charcoal grills, outdoor living products, waterfalls and now a full line of Heating & Cooling equipment.
