Crystallo™ & Manhattan™
LED SPECTRUM LIGHTS NOW STANDARD

Available Now!

Now the natural beauty of the Northern Lights has been captured in the new Crystallo™ and Manhattan™ light system. Every colour in a rainbow can now be enjoyed by either selecting a preferred colour or setting the lights to scroll through the spectrum of colours illuminating the glass media. As part of this product improvement, the topaz glass media previously included in the Crystallo™ and Manhattan™ is replaced with clear glass to maximize the diffusion of the light.

Features - New LED Lights

- Based on an RGB colour spectrum providing a multitude of colours
- Continuous strip of LED lights
- Controlled by a wall switch
- Transitions between colours or can be set to the colour of your choice including white
- Extra long life expectancy and energy efficient

Crystallo™   Manhattan™

Colour Samples

(Note that the LED lights transition through a multitude of colours based on an RGB colour spectrum. Colour samples below represent some of the colours that can be displayed through the clear CRYSTALINE™ ember bed.)

Green   Yellow   Orange   Red
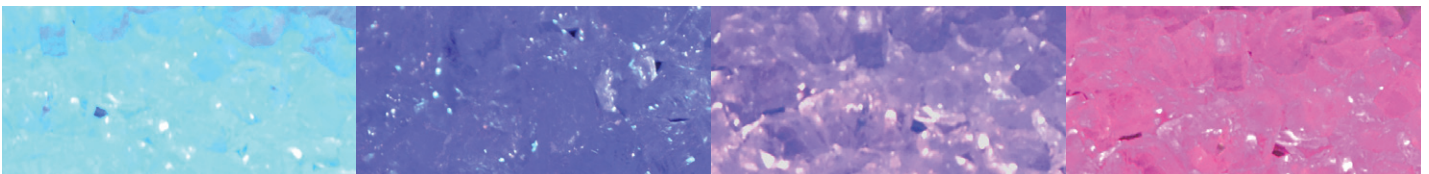

Teal/Aqua   Blue   Purple   Pink

NEW PROFLAME II REMOTE CONTROL

Proflame II - Modulating Remote Control

🔥 **Controls NIGHT LIGHT™**

(Six levels of brightness)

🔥 **Controls heat output**

(Six levels of flame intensity)

🔥 **Controls optional blower kit**

(Six levels of blower output)

🔥 **Features a 12 minute delay on fan**

(Blower will come on approximately five minutes after the main burner comes on and will shut off approximately 12 minutes after burner shuts off. The time delay is designed to maximize the blower distribution of heated air.)

🔥 **Works with pilot or electronic ignition**

🔥 **Thermostat or on/off - thermostat can be disabled**

🔥 **Battery back-up**

Units Complete with Proflame II Remote Control

- HDX40NT-1
- LHD62 (Coming soon)

HDX40NT-1 Clean Face Gas Fireplace

Inspired by traditional masonry details and created with Napoleon's state-of-the-art gas fireplace technology, the deluxe HDX40 offers the ultimate in performance and design. The clean face front allows a full view of the impressive 40 ¼" wide firebox with your choice of either fine detailed PHAZER® logs and charcoal embers or a River Rock ember bed. The exclusive NIGHT LIGHT™ accents the firebox even when the fireplace is off. The HDX40 is a perfect investment for your lifestyle and your home.

Napoleon® Options/Accessories

- Your choice of exquisite, fine detailed PHAZER® logs and charcoal embers or a stunning river rock media tray with satin chrome decorative fender
- Media enhancement kits of coloured glass (black, blue, red, amber) are designed to enhance the river rock firebox base
- Four-sided frame is available in painted black, brown or diamond dust pewter finishes
- Faceplate with operable screen doors
- Premium scalloped steel face trim and door
- An impressive Newport™ decorative brick panel or a Mayan Desert™ Sandstone brick panel add to the traditional design
- Porcelain Reflective Radiant Panels are available in flat or ribbed design
- Bevelled trim kit is available in painted black or brushed stainless steel finishes
- Certified for bedrooms, bathrooms, bed sitting rooms and mobile homes
- President's Limited Lifetime Warranty

# Wolf Steel Product Information Bulletin

Subject: **Crystallo and the Manhattan Get New Light Systems**

Most everyone has seen or heard of the Aurora Borealis (Northern Lights). Like translucent curtains the undulating spectrum of lights blend into one another as they ripple across the northern night sky.

Now the natural beauty of the Northern Lights phenomena has been captured in the new Crystallo and Manhattan light systems. Every colour in a rainbow can now be enjoyed by either selecting a preferred colour or setting the lights to scroll through the spectrum of colours illuminating the glass media. As part of this product improvement, the topaz glass media previously included in the Crystallo and Manhattan is replaced with clear glass to maximize the diffusion of the light.

Digitally controlled the system utilizes 27 RGB-LED lights which consume a nominal 6 watts per hour of electricity making its efficiency almost as awe inspiring as the colours themselves. Below is a series of pictures illustrating some of the many colour variations displayed in the New Crystallo.

Available as soon as current inventories are depleted, these new fireplace models will be denoted with a -1 as well as a label stating "New LED Lights" on the carton. This new light system is not retro-fittable and therefore, showroom models must be replaced to demonstrate this New Light System.
