## NPS45 Automated Pellet Stove

The NPS45 amalgamates Napoleon's superior pellet performance with the convenience of complete automation. The NPS45 has a purge cycle which automatically cleans the burn pot of residue at start-up, shutdown and every 60 minutes, substantially reducing the frequency of cleaning cycles.

### CONTROLS

#### RED LIGHTS

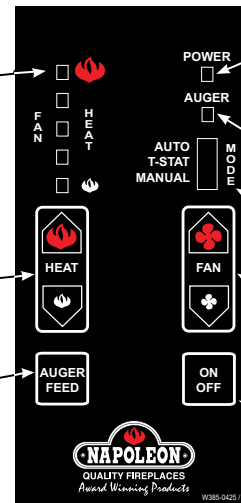

- Indicates set feed rates.
- When making fan adjustment, light will indicate fan speed temporarily and return to heat setting.

#### HEAT ADJUSTMENT

Increases or decreases the heat level.

#### AUGER FEED

"Quick Feed" feature is ideal for initial start up to quickly deliver pellet fuel to the burn pot.

#### GREEN LIGHT

- Solid**
  - Normal operating mode.
- Flashing**
  - Start-up or shut down cycle.

#### AMBER LIGHT

When on, the auger is turning.

#### OPERATING MODE

Sets the heaters operating mode.  
\* see explanation below

#### FAN ADJUSTMENT

Increases or decreases the speed of the convection fan and provides heat to the room.

#### ON / OFF

Used to turn the heater on or off.  
Turns unit back on at previously preset mode.

\*Auto: Ideal for Spring and Fall, shuts completely down between extended on/off cycles and re-lights electronically when heat is called for.

\*T-Stat: Typical winter setting - maintains small continuous fire (like a pilot light) during frequent on/off cycles, eliminating igniter usage and conserving electricity.

### Napoleon® Exclusive Features

- For maximum comfort, the NPS45 allows for convection blower adjustments, no matter what the heat setting is at
- Flashing light warns you when fuel is expended
- Fine-tuning adjustment modifies combustion air and/or pellet feed rate to the burn pot to compensate for poor quality pellets and/or venting variances
- Purge cycle (on start-up, shutdown and every 60 minutes) cleans the burn pot of residue depositing it in the ash pan
- From 8,000 to 40,000 BTU's (may vary depending on pellet quality)
- Concealed, large capacity ash pan
- FAILSAFE™ auto ignition and auger system allows you to start the fire quickly and easily
- Large 55 lb, easy-loading hopper for up to 55 hours of continuous, trouble free operation (55lb capacity allows for a full 40lb bag of pellets to be added while 15lbs still remain in the hopper, eliminating the inconvenience of partial bags)
- Easy to access, automated control panel
- 3" or 4" pellet vent
- Certified for bedrooms, bathrooms, bed sitting rooms and mobile homes
- President's Limited Lifetime Warranty

#### Optional Accessories

- Hopper extension increases capacity to 80 lbs for extended long continuous burns
- Painted black, 24 karat gold plated or satin chrome plated doors
- 24 karat gold plated or satin chrome plated trivet (painted black trivet comes standard)
- Decorative Sandstone Brick or Porcelain Reflective Radiant Panels
- Decorative log set
- Outside air kit

For more information or to place an order call 1-800- 461-5581 or visit [napoleonfireplaces.com](http://napoleonfireplaces.com)

## NPS45
