

the art of fire

THE STORY

It all started in 1976 in a small garage just outside Barrie, Ontario, Canada, where Wolfgang Schroeter, trained in a German technical engineering school, built three wood stoves his first year while his wife and partner, Ingrid, would bring home the metal needed on the roof of her car. At that time, no one could imagine the incredible future that lay ahead for Wolf Steel Ltd. and eventually Napoleon® Fireplaces, Napoleon® Gourmet Grills and Napoleon® Heating & Cooling.

By 1981, the name "Napoleon" was born. Over the years, the demand for Napoleon® products grew beyond Ontario's borders to the rest of Canada and eventually into the United States, United Kingdom, Europe and Asia. Napoleon® is an ISO9001 - 2008 registered company and now operates with over 1,400,000 square feet of manufacturing and distribution space and employs over 1,000 associates.

Wolf Steel's ownership now reflects two generations of the Schroeter family's high standards of quality, performance and commitment to pursuing cutting edge design and providing consumers with true 'value' they expect for their investment. Each family member is involved in the day-to-day functions of all operations. The high degree of continuity and stability guaranteed by the Schroeter family, combined with an uncompromising customer focus, innovative strength and highly regarded branding, are responsible for this success.

Nominated as a regional finalist in the Deloitte Canada's Best Managed Companies program

STARfire™ 52

The STARfire™ 52 offers a wide range of heat output and advanced burner technology that produces a massive concentrated flame. Easy slide door glides into place with kitchen cabinet style door glides - a Patent Pending design. The realistic hand painted PHAZER® log set is rich in colour and detail. Napoleon's STARfire™ 52 is a one of a kind fireplace that you will be proud to show to family and friends! The perfect fit for great rooms and large family rooms or for anyone looking to make a statement in their home.

- Up to 55,000 BTU's
- Exclusive Napoleon® NIGHT LIGHT™ (two lights included in the STARfire™ 52) radiates a warm glow to the room even when the fireplace is on or off
- Advanced burner technology with glowing ember bed, produces the most realistic flames in the industry
- Choice of river rock, CRYSTALINE™ or PHAZER® log set burner assembly
- Safety screen standard
- Includes a multi-function remote control
- Available in natural gas or propane
- Optional heat circulating blower with variable speed and thermostatic control provides powerful heating performance
- Optional MIRRO-FLAME™ Porcelain Reflective Radiant Panels in Piano Black, Platinum or Cappuccino
- Optional Brick kits in LEDGEROCK, Newport or Herringbone.
- Product Code: STARfire™ 52 (HDX52)

High Country 8000

HIGH COUNTRY™ 8000

Introducing a new large clean face wood fireplace with a huge viewing area. Exclusive counterbalanced guillotine door system operates the screen and heat radiating ceramic glass independently, allowing the fire to be viewed through either the glass, screen or both. The large firebox holds up to 50 lbs of wood and is lined with molded refractory brick. Powerful air wash system keeps the glass clean and the super-boost air induction ports sweep across the ember bed for extremely fast start-ups.

- Firebox aerodynamics allow you to open the door without drawing smoke into the room
- Guillotine glass and screen door operate independently
- Only 2.8 grams per hour emissions
- Flue damper and outside air damper close 100% when not in use to minimize heat loss
- Optional molded refractory brick or Herringbone vermiculite firebox
- Steel andirons in black finish standard
- Outside air control lever standard
- Glass hinges out for easy cleaning
- Firebox is tapered back to increase heat radiating back into the firebox to maximize efficiency

High Country 7000 Linear

HIGH COUNTRY™ 7000 LINEAR

Introducing a new European clean face linear wood fireplace with a huge viewing area. Exclusive counterbalanced guillotine door system operates the screen and heat radiating ceramic glass independently, allowing the fire to be viewed through either the glass, screen or both. The large firebox holds up to 50 lbs of wood and is lined with high density vermiculite. Powerful air wash system keeps the glass clean and the super-boost air induction ports sweep across the ember bed for extremely fast start-ups.

- Firebox aerodynamics allow you to open the door without drawing smoke into the room
- Guillotine glass and screen door operate independently
- Only 3.8 grams per kilogram emissions, EPA compliant
- Flue damper and outside air damper close 100% when not in use to minimize heat loss
- Molded, high density vermiculite lined
- Steel andirons in black finish standard
- Outside air control lever standard
- Glass hinges out for easy cleaning
- Firebox is tapered back to increase heat radiating back into the firebox to maximize efficiency

Ascent[®] 35

Ascent[®] 30

Ascent[®] 42

ASCENT™ 30, 35 & 42

The clean face design of the Ascent™ Series maximizes the viewing area so the realistic flames and hand painted PHAZER® log set are enjoyed to their fullest. These fireplaces are equipped with Napoleon's advanced burner technology, an exclusive pan style burner and a safety screen. - Exclusive PHAZER® log set and glowing ember bed are the most realistic in the industry
- Available with millivolt or electronic ignition
- Pan style burner
- Flex connector and shut-off
- Safety screen standard
- Optional Sandstone or Herringbone brick panels and MIRRO-FLAME™ Porcelain Reflective Radiant Panels
- Optional decorative front or three piece trim kit
- Optional remote control
- Optional blower kit
- Optional propane conversion kit available
- Product Code: Ascent™ 30 (B30), Ascent™ 35 (B35), Ascent™ 42 (B42)

Ascent® Multi-View 40

ASCENT™ MULTI-VIEW 40

Introducing a revamped clean face multi-view fireplace series with integrated safety screens, perfect for making an exceptional focal point between two rooms. Napoleon's Ascent™ 40 clean face multi-view direct vent gas fireplace is available as a two-sided (See Thru) or a three-sided (Peninsula) model and features various firebox/burner options including a log burner, a linear glass burner or a designer fire cradle featuring topaz glass embers to match any room in your home.

- Fixed rate at 30,000 BTU's (optional modulation/remote control kit)
- Available in a See Thru (two-sided) or peninsula (three-sided) version with a log burner, a linear topaz glass burner or a designer fire cradle complete with exclusive topaz glass
- 1,000 square inch viewing area
- Safety screen kit standard
- Available in natural gas (propane conversion kit available)
- Optional Newport™ panels or MIRRO-FLAME™ Porcelain Reflective Radiant Panels
- Optional river rock media kit in grey finish
- Optional remote control
- Product Code: BHD4

Ascent® Electric 33

Ascent® Electric 40

ASCENT™ ELECTRIC 33 & 40

The Ascent™ Electric 33 & 40 electric fireplaces imitate the look of a traditional masonry fireplace but with all the convenience of simply plugging it in, sitting back and enjoying the heat and glowing log set! Napoleon's flame technology randomly adjusts the flame effect, colour, height & speed creating the illusion of a true wood burning fire with modulating ember bed for a realistic glow of burning wood. The ULTRA BRIGHT™ LED lights and convenient remote enhance the allure of the Ascent™ Electric fireplaces.

- 5,000 BTU's and 1,500 Watts
- Plugs into a standard 120V electrical outlet or can be hard-wired
- Realistic glowing log ember bed
- ULTRA BRIGHT™ LED lights, designed to be bright at night and in sunlight
- Easy access on/off switch
- WHISPER QUIET™ fan and heater with thermostatic control
- Convenient remote controls flame appearance, ember bed intensity, blower and heat output
- Available as a single unit, in a mantel or as part of an entertainment stand package
- Perfect for any room in a house, condo, apartment or office
- Product Code: Ascent™ Electric 33 (BEF33H), Ascent™ Electric 40 (BEF40H)

Azure 42

Azure 50

AZURE™ 42 & 50

Napoleon's new Azure™ 42 & Azure™ 50 electric fireplaces feature 20 different flame and colour settings to match or enhance any room in your home. They feature a generous glass front and a clear glass ember bed to complement the crisp, clean design. The convenient wall hanging installation allows a quick and easy transformation of living rooms, bedrooms, kitchens, bathrooms, waiting rooms and offices.

- 5,000 BTU's and 1,500 Watts
- Sleek, thin design protrudes only 4.5" from the wall
- Features front vents with the sleek design (EFL50H)
- Plugs into a standard 120V electrical outlet
- Easy installation... simply hang, plug and play
- 20 different flame and colour settings
- Clear glass media ember bed (EFL42H)
- Crystal clear cube ember bed (EFL50H)
- Convenient remote control (controls flame appearance, ember bed intensity and five stages of heat output)
- Paintable cord cover (covers cord and can be painted to blend in with existing decor)
- Suitable for bathrooms, bedrooms and bed sitting rooms
- Product Code: Azure™ 42 (EFL42H), Azure™ 50 (EFL50H)

INDOOR PACKAGED EQUIPMENT

CONDO
PACK

THE HIGHEST EFFICIENCY IN
THRU WALL - SELF CONTAINED UNITS

95%

FURNACE EFFICIENCY RATING
12.5 SEER AIR CONDITIONING

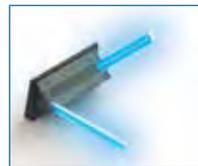

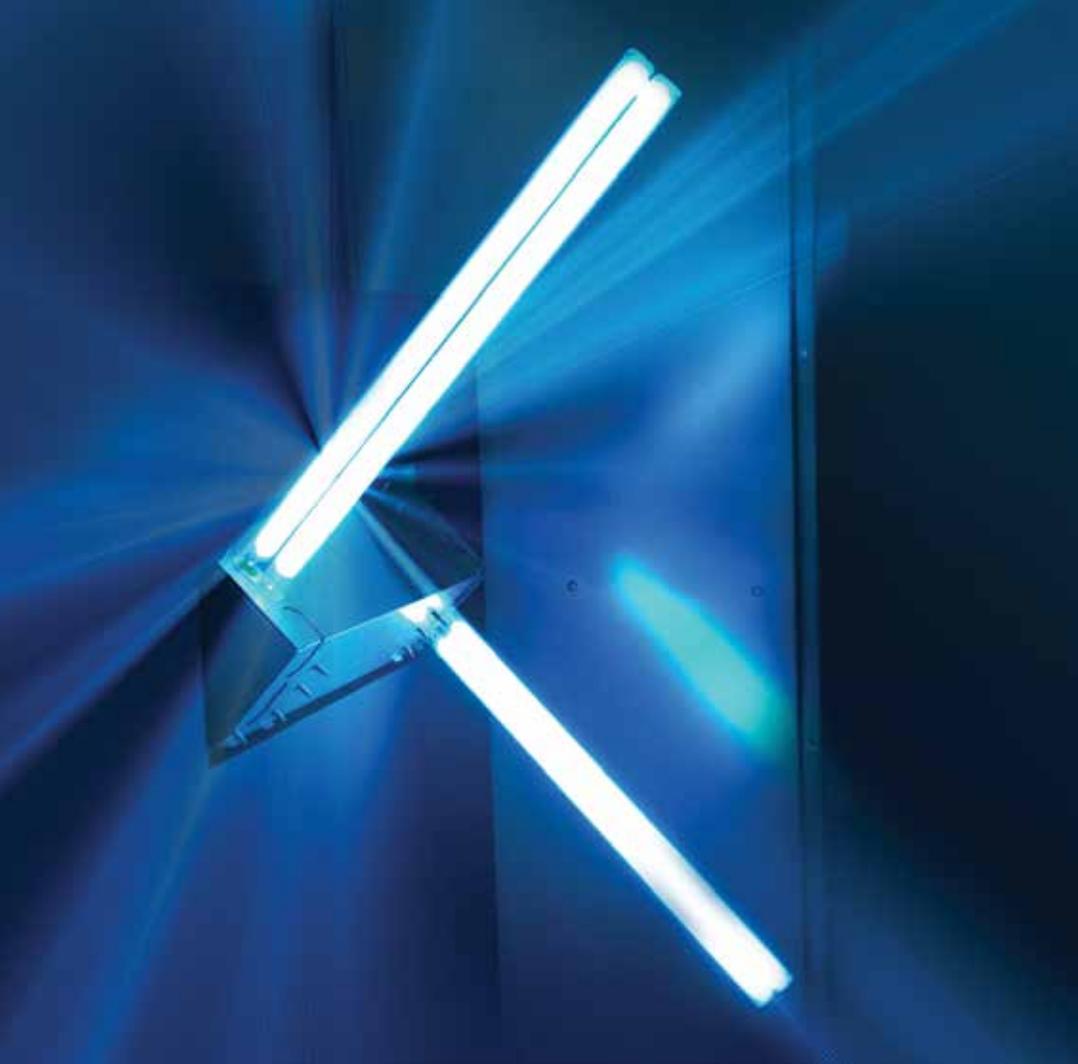

CONDO PACK™

Designed for conventional thru wall installation applications, Condo Pack is the most effective choice with an “all indoor design” for a clean exterior look. Perfect for residential low and high rise applications, institutional as well as industrial installations. Our forward thinking is also backed by an industry leading quality control program that ensures long lasting function and efficiency. The future of thru wall heating and cooling is here.

- Industry leading 95% AFUE tubular aluminized steel heat exchanger
- 12.5 SEER with R-410A refrigerant
- Natural gas, direct vent, electric heating, hot water heating or heat pump versatility
- Eliminates expensive and inconvenient building-wide service shutdowns
- Independent metering and temperature control with return air option if required
- Wall sleeve power venting eliminates the need for a chimney
- Indoor access to all parts and maintenance needs with innovative slide out chassis for efficient service
- Condensation drain isolated from air stream and entire unit is tested in factory before shipment
- Sleeve can be installed during rough construction, with unit can be installed at a later date
- Unit can be “switched out” for minimal down time during servicing.
- Industry standard footprint for retrofit applications
- Fully insulated anti-microbial cabinet for clean and quiet operation
- Blower dynamically balanced with resilient motor mounts for noise reduction and smooth operation
- Optional stainless steel, low nox, and high altitude units available
- Easy to install and service

UV HOMESHIELD™

Home Shield UV uses medical grade Phillips® UV Bulbs with flexible installation configurations to purify your home's indoor environment. Cheap low grade bulbs with ineffective range and/or illogical installation configurations cannot solve contamination problems. With Home Shield UV, all integral HVAC system components will perform more efficiently by halting growth buildup. The line up includes four models and all are universal for any furnace or AC system.

- Two output ranges for high output of 99% or low output of 90% effectiveness
- Each range offers a dual head or modular configuration and combinations can be installed to best accommodate appliance cabinet size and ducting
- High output dual head configuration offers 120 watt high output UV sterilization system (UVHFS120WB)
- High output modular configuration has one bulb and offers 120 watt high output UV sterilization system (UVHMS120WB)
- Low output dual head configuration offers 36 watt low output UV coil irradiation system (UVLFS036WB)
- Low output modular configuration has one bulb and offers 36 watt low output UV coil irradiation system (UVLMS036WB)
- Benefits of use include; less maintenance, energy savings and installation ease
- Low output option keeps new AC coils clean
- High output option treats older contaminated AC coils
- Increased system performance and avoids costly illnesses
- Product Code: UVHFS120WB, UVHMS120WB, UVLFS036WB, UVLMS036WB

Adding a 260,000 sq. ft. advanced logistics centre for **optimal customer service.**

Completion Date: Spring/Summer 2014

Napoleon's new state-of-the-art Distribution Centre is nearing completion and will allow improved customer service and cost savings to our dealers. The 260,000 square foot facility will allow the Napoleon Group of Companies to provide a 24 hour turnaround time on shipments and same day courier service, for all three divisions; Fireplaces, Grills and Heating & Cooling. Warehousing products in one location for all three divisions will also allow for consolidated shipping to our dealers and reduce the cost of freight, adding to the success of our dealers throughout North America.

WHY NAPOLEON?

With over 36 years of passionate dedication, Napoleon®, an industry leader for innovative designs, has earned a worldwide reputation for providing families with fireplaces, grills and heating & cooling equipment of uncompromising quality, state-of-the-art technology and designer features that create a proud statement in any home.

As the largest family owned hearth & grill manufacturer in North America, Napoleon® holds strong family values that carry through in every aspect of the organization. Since 1976, Napoleon® has grown from a small manufacturing operation to a large private corporation, instilling the same strong values they started with.

Napoleon® partners with over 4,000 reputable authorized dealers across North America and Europe, providing professional training, experienced technical support and unparalleled customer service.

Each and every Napoleon® fireplace is designed and manufactured to strict quality testing standards and backed by the President's Limited Lifetime Warranty, guaranteed to give you the solid performance you deserve. (Registered under the world recognized ISO 9001-2008)

Napoleon® products are found in homes around the globe... the preferred choice worldwide.
